Wearing Old Clothes.

London, May 31.—Don't be a laggard in wear old clothes in war time. The extraordinary demand for new London has been on the decline. For new wearing suits are seen even on enemy lines. Navy blue is worn by nearly every one who is not in mourning. A practical plainness seems to be aimed at by the majority.

HEAVY MEAT EATERS HAVE SLOW KIDNEYS

Eat Less Meat If You Feel Back-
ache or Have Bladder
Trouble

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid, which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver troubles, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment or of passage or attended by a sensation of swelling, stop eating meat and get about four ounces of Jad Salts from any pharmacy, take a teaspoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in uric acid so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure, makes a delicious little water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding various kidney complications.

HIDDEN TROUBLE

Because your teeth are faulty in appearance it does not necessarily follow that they are SOUND. HIDDEN TROUBLE may be commencing in secret places. Decay often starts for weeks BEFORE it becomes apparent. The skillful dentist can detect these places and PREVENT disfigurement and disease. Do at least twice a year to your teeth, and have your teeth examined.
